# EXPLANATION

The General Alphabetical Index List is printed on the following pages. It is arranged alphabetically, without reference to location. The number of the page and column follows the physician's name. **To learn the data concerning any physician, look him up in the General Alphabetical Index List; turn to the page and column indicated,** and look for the name in that county list.

**The county name** will be found at the top of each page of the county lists.

Immediately following the General Alphabetical Index List will be found the list of **"address unknown,"** and those known to be out of California. Wherever possible, the last known address is given. In some cases the present address **was learned** too late to make the correction in the body of the book, so it has been made in this list.

The letter (E) following a name indicates an Eclectic.

The letter (H) following a name indicates a Homeopath.

The letter (O) indicates Osteopath.

**The letter (C) indicates** "certificate," and the number following it shows the year in which the certificate was granted.

**Please look through the "address unknown" list carefully, and if you know the whereabouts of any physician in the list, let us know at once.**

**Names of members** of the Medical Society of the State of California are **printed in black-face type,** in the county lists. If the membership as thus given is inaccurate, write to the **secretary of your county society** and ask him why your name is not included.

It is to the advantage of everybody concerned to have the Register as accurate as possible. Therefore, **it is to your own interests to notify us of any errors, omissions or inaccuracies which you may note. Please do so.**

MEDICAL SOCIETY OF THE STATE OF CALIFORNIA,
PHILIP MILLS JONES, M. D., Secretary and Editor.
